

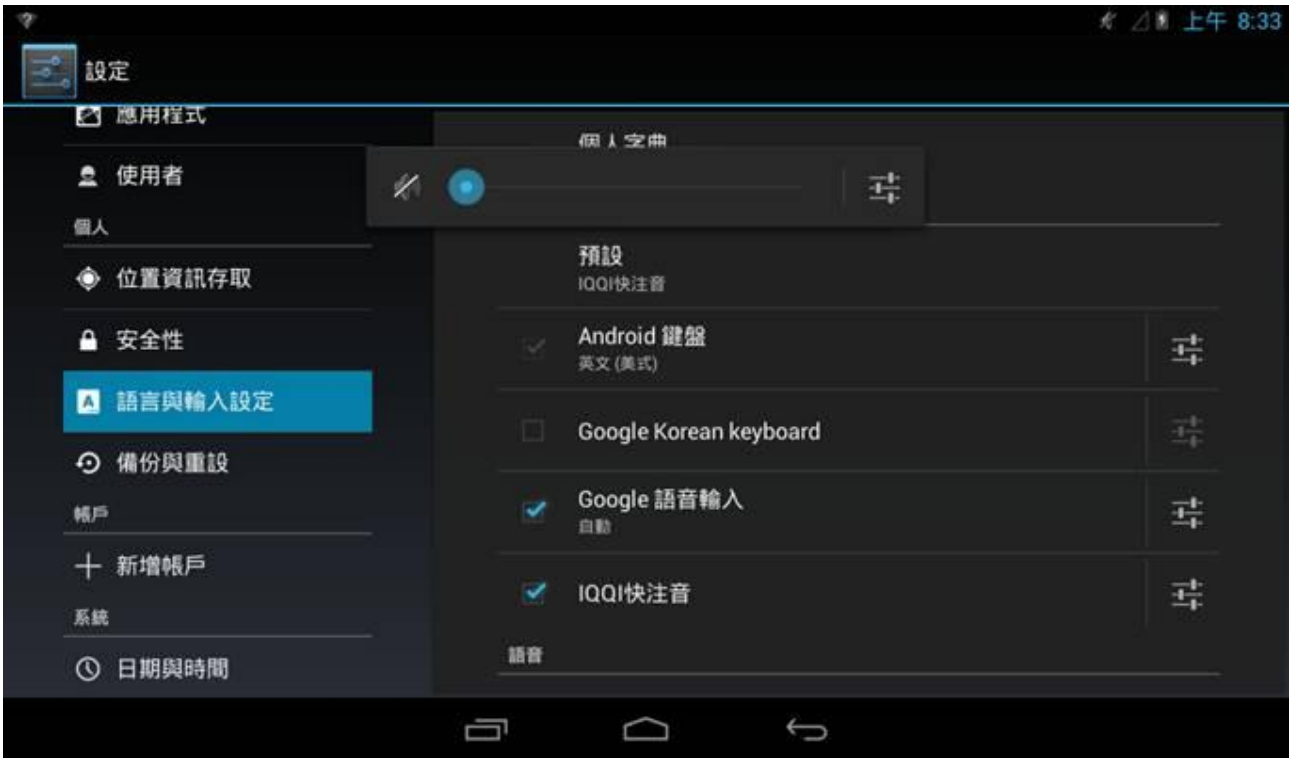
Chinese Input setting

Prepared by MSI NB FAE Team | Version: 1.0 | Date: 2013/10/01

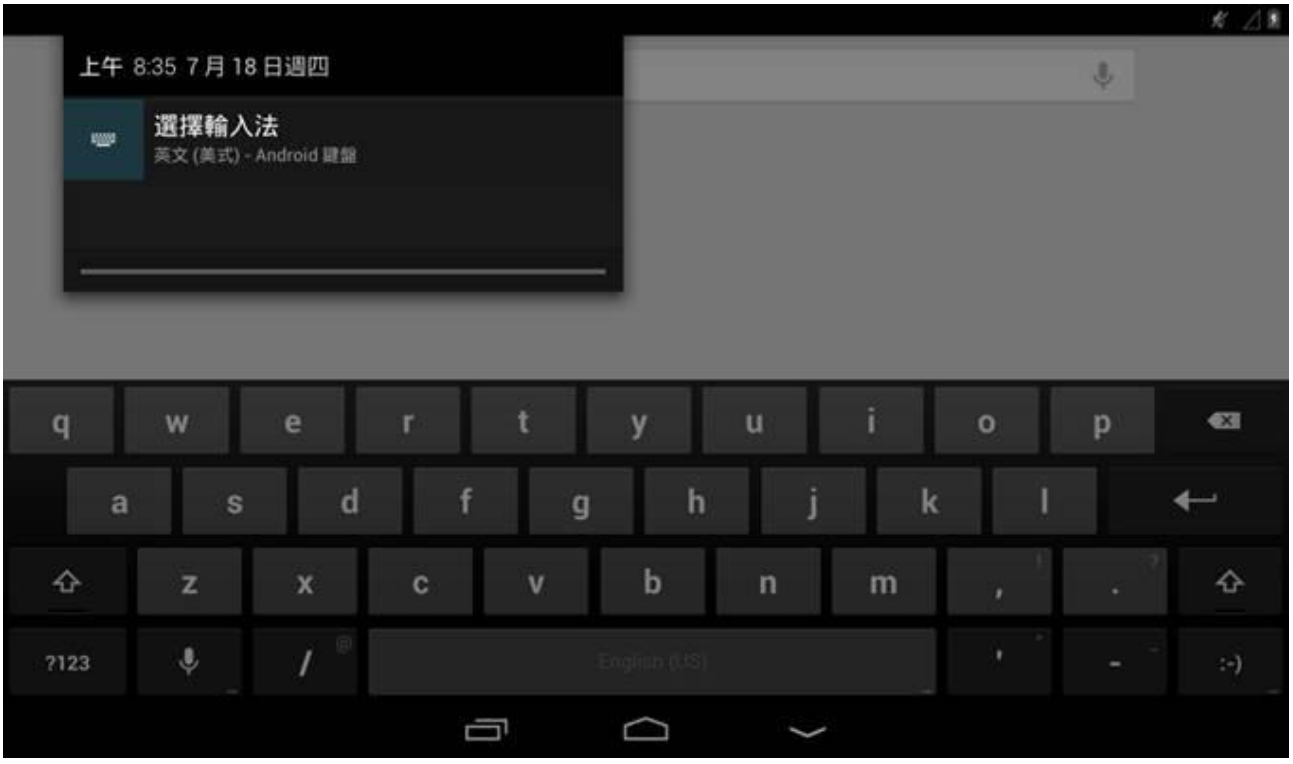
How to select the Chinese input function?

User could add Chinese input (IQQI – Zhuyin) on Primo73/76/81 through following three steps easily.

1. Go to Setting -> Language & input. Please check IQQI – Zhuyin option.



2. Choose input method. You can slide the bar to select what you want to use.



3. Select “IQQI – Zhuyin”. After that, you could start using the Chinese input.
