| Kensington Lock                 | Yes                                                                                |
| Montagem VESA                   | 100 x 100 mm                                                                       |
| Tipo de energia                 | Power Cable                                                                        |
| Entrada de energia              | 100~240V, 50/60Hz                                                                  |
| Frequência de sinal             | 31~274 KHz(H) / 48~175 Hz(V)                                                       |
| Ajustes (Inclinação)            | -5° ~ 20°                                                                          |
| Ajustes (Giro)                  | 30° ~ 30°                                                                          |

## FEATURES

### QD-OLED Display

MSI's renowned QD tech, combined with the latest OLED panel technology, these displays exhibit the best picture quality and incredible high contrast when gaming.

### 175Hz High Refresh Rate

Experience smooth gaming with a blazing fast refresh rate, that gives you the upper hand in fast-moving games.

### Fastest 0.03 Response time

Response time is much faster and smoother than conventional LCD displays. The response time is up to 0.03 ms GtG exceeds the most mainstream refresh rates requirements.

### OLED Care 2.0

MSI has developed a more advanced version to provide several care services and significantly reduce the chances of OLED screen aging.

### Gaming Intelligence APP

Customize and set the ultimate monitor modes with keyboard & mouse in a very easy way. Easily activate useful function in game and take advantages.

### Graphene film with Custom Heatsink

Graphene film and customized heatsink designs, the synergy between these two elements enables monitor to operate without an active cooling fan, achieving a fanless design. This ensures efficient and silent heat dispersion, further extending the panel's lifespan.

### VESA DisplayHDR True Black 400

It has passed the VESA DisplayHDR True Black 400 Certification, meaning it can provide a display with the most realistic colors.

|                  |                                                                                                                                                                                    |
