

FEATURES

PCIe 5.0 High-Speed Transmission

Delivers up to 128 GB/s data transfer bandwidth, ensuring full performance for next-generation GPUs with zero bottlenecks.

Advanced Signal Integrity Design

Built with low-loss and high-quality conductors to minimize signal interference, providing reliable performance under heavy workloads.

Ultra-Flexible & Durable Design

High-quality materials enable easy routing, reliable installation, and clean vertical GPU builds.

SPECIFICATIONS

Bandwidth	Up to 128 GB/s
Interface	PCIe 5.0
Material	PCB & Copper
Color	Black
Cable length	180 mm
