

## SPECIFICATIONS

|                             |                                                                 |
|-----------------------------|-----------------------------------------------------------------|
| Model Name                  | GeForce® GTX 1050 Ti 4GT LPV2                                   |
| Cores                       | 768 Units                                                       |
| Memory                      | 4GB GDDR5                                                       |
| Standard sběrnice           | PCI Express x16 3.0                                             |
| Rozhraní paměti             | 128-bit                                                         |
| Takt jádra (MHz)            | 1392 MHz / 1290 MHz                                             |
| Takt paměti (MHz)           | 7008 MHz                                                        |
| Max připojených displejů    | 4                                                               |
| HDCP podpora                | 2.2                                                             |
| Output                      | DisplayPort (Version 1.4) / HDMI™ X 2 (Version 2.0b) / DL-DVI-D |
| Doporučený výkon zdroje (W) | 300 W                                                           |
| Příslušenství               | Low Profile Bracket x 1                                         |
| Podpora DirectX verze       | 12                                                              |
| Podpora OpenGL verze        | 4.5                                                             |
| Rozměry (mm)                | 170 x 69 x 38 mm                                                |
| Váha (g)                    | 270 g / 483 g                                                   |

## CONNECTIONS

1. HDMI™
2. DisplayPort
3. DVI-D

## FEATURES

### MSI Afterburner

The ultimate overclocking software with advanced control options and real-time hardware monitor.

### Military Class 4 Components

Using only the highest quality components means you get reliable and stable in-game performance.

GEFORCE GTX

### PASCAL PERFORMANCE

Pascal-powered graphics cards give you superior performance and power efficiency to deliver the best gaming experiences.

### LOW PROFILE DESIGN

Low Profile design saves space to allow building a slim/small form factor system.

### DUAL FAN THERMAL DESIGN

Dual fans covers more area of heatsink to take heat away more efficiently.

### NVIDIA® G-SYNC®

Gives you more of what you want in a gaming experience. Incredibly smooth, tear-free gameplay at refresh rates up to 240 Hz.
