

## SPECIFICATIONS

|                             |                                                                                                                         |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Marketing Name              | GeForce RTX™ 5070 12G GAMING TRIO OC                                                                                    |
| Model Name                  | G5070-12GTC                                                                                                             |
| Cores                       | 6144 Units                                                                                                              |
| Memory                      | 12GB GDDR7                                                                                                              |
| Standard sběrnice           | PCI Express® Gen 5                                                                                                      |
| Rozhraní paměti             | 192-bit                                                                                                                 |
| Takt jádra (MHz)            | Extreme Performance: 2625 MHz (MSI Center)<br>Boost: 2610 MHz                                                           |
| Takt paměti (MHz)           | 28 Gbps                                                                                                                 |
| Max připojených displejů    | 4                                                                                                                       |
| Output                      | DisplayPort x 3 (v2.1b)<br>HDMI™ x 1 (As specified in HDMI™ 2.1b: up to 4K 480Hz or 8K 120Hz with DSC, Gaming VRR, HDR) |
| HDCP podpora                | Y                                                                                                                       |
| Doporučený výkon zdroje (W) | 650 W                                                                                                                   |
| Digital Maximum Resolution  | 7680 x 4320                                                                                                             |
| Napájecí kabely             | 16-pin x 1                                                                                                              |
| Podpora DirectX verze       | 12 Ultimate                                                                                                             |
| Podpora OpenGL verze        | 4.6                                                                                                                     |
| Rozměry (mm)                | 338 x 140 x 50 mm                                                                                                       |
| Váha (g)                    | 1187 g / 1705 g                                                                                                         |

## CONNECTIONS

1. DisplayPort
2. HDMI™

## FEATURES

### TRI FROZR 4

Upgraded fans, airflow control, and thermal design deliver superior cooling and quieter operation.

### STORMFORCE FAN

Seven fan blades, claw texturing, and a circular arc are designed for optimal airflow with minimal noise.

### Nickel-plated Copper Baseplate

Heat from the GPU and memory is swiftly captured by a nickel-plated copper baseplate and transferred.

### Core Pipes

Core Pipes feature a square design to maximize contact with the GPU baseplate for optimal thermal management.

### Metal Backplate

A reinforcing metal backplate with airflow vents and thermal pads enhances cooling.

### Wave Curved 4.0

Precision-engineered wave edges with a high-low fin design enhance airflow and reduce turbulence.

### Air Antegrade Fin 2.0

The fins feature a V-shaped cutout and a high-low design at the airflow passthrough to optimize flow efficiency.

### MSI Center

The exclusive MSI Center software lets you monitor, tweak and optimize MSI products in real-time.

### Afterburner

Take full control with the most recognized and widely used graphics card overclocking software in the world.
