

## SPECIFICATIONS

|                        |                                                            |
|------------------------|------------------------------------------------------------|
| 製品型番                   | GeForce® GTX 1050 2GT LP                                   |
| 搭載GPU                  | NVIDIA® GeForce® GTX 1050                                  |
| コア                     | GP107-300                                                  |
| コア数                    | 640 Units                                                  |
| コアクロック [MHz]           | 1455 MHz / 1354 MHz                                        |
| メモリアイプ*2               | 2GB GDDR5(128-bit)                                         |
| メモリスピード                | 7008 MHz                                                   |
| メモリバス幅 [bit]           | 128-bit                                                    |
| HDCPサポート               | 2.2                                                        |
| 消費電力 (W)               | 75 W                                                       |
| 推奨電源ユニット容量 (W)         | 300 W                                                      |
| 重さ (g)                 | 276 g / 489 g                                              |
| Afterburner OC         | Y                                                          |
| DirectX対応バージョン         | 12                                                         |
| OpenGL対応バージョン          | 4.5                                                        |
| 最大同時出力画面数              | 3                                                          |
| 映像出力端子                 | DisplayPort (Version 1.4) / HDMI™ (Version 2.0) / DL-DVI-D |
| G-SYNC™ technology     | Y                                                          |
| Adaptive Vertical Sync | Y                                                          |
| 付属品**                  | Low Profile Bracket (*optional)                            |

## CONNECTIONS

1. HDMI™
2. DisplayPort
3. DVI-D

## FEATURES

### MSI Afterburner

The ultimate overclocking software with advanced control options and real-time hardware monitor.

### Military Class 4 Components

Using only the highest quality components means you get reliable and stable in-game performance.

### NVIDIA G-SYNC™

Gives you more of what you want in a gaming experience. Incredibly smooth, tear-free gameplay at refresh rates up to 240 Hz.

### DUAL FAN THERMAL DESIGN

Dual fans covers more area of heatsink to take heat away more efficiently.
