

## SPECIFICATIONS

|                                     |                                     |
|-------------------------------------|-------------------------------------|
| Núcleos                             | 2560 Units                          |
| Memoria                             | 8GB GDDR6                           |
| Norma Bus                           | PCI Express x16 3.0                 |
| Interfaz de Memoria                 | 256-bit                             |
| Velocidad de clock de memoria (MHz) | 14 Gbps                             |
| Máximo de pantallas                 | 4                                   |
| Tecnología G-SYNC™                  | Sí                                  |
| Adaptive Vertical Sync              | Sí                                  |
| Tecnología Multi-GPU                | NVIDIA® NVLink™ (SLI-Ready), 2 vías |
| Soporte HDCP                        | 2.2                                 |
| Consumo (W)                         | 215W                                |
| Alimentación recomendada (W)        | 650W                                |
| Resolución máxima digital           | 7680 x 4320                         |
| Apto para Realidad Virtual          | Y                                   |
| Conectores de alimentación          | 6 pines x 1 / 8 pines x 1           |
| Soporte DirectX Versión             | 12 API                              |
| Soporte OpenGL Versión              | 4.5                                 |
| Dimensiones (mm)                    | 297 x 143 x 56 mm                   |
| Peso                                | 1421g / 1969g                       |

## CONNECTIONS

1. DisplayPort
2. HDMI™

## FEATURES

### MSI Afterburner

The ultimate overclocking software with advanced control options and real-time hardware monitor.

### RGB LED

Make your build look on fire or cold as ice. You are in control. Customize colors and effects with RGB LED.

### TORX FAN 3.0

Award-winning fan design combining two different fin designs for cool & quiet gaming.

### ZERO FROZR

Eliminates fan noise by stopping the fans in low-load situations so you can focus on your game.

### CUSTOM PCB

An optimized PCB design with enhanced power delivery provides a solid base for high performance gaming.

### SOLID BACKPLATE

Increases toughness of the card to prevent bending while complementing the design.

### Mastery of Aerodynamics

Using groundbreaking aerodynamic techniques, the heatsink is optimized for efficient heat dissipation.
