

## SPECIFICATIONS

|                              |                                                                |
|------------------------------|----------------------------------------------------------------|
| Model Name                   | GeForce® GTX 1070 Ti GAMING 8G                                 |
| Memory                       | 8GB GDDR5                                                      |
| Silnik graficzny             | NVIDIA® GeForce® GTX 1070 Ti                                   |
| Standard magistrali          | PCI Express x16 3.0                                            |
| Interfejs pamięci            | 256-bit                                                        |
| Taktowanie rdzenia GPU (MHz) | 1683 MHz / 1607 MHz                                            |
| Taktowanie pamięci (MHz)     | 8008 MHz                                                       |
| Maximum Displays             | 4                                                              |
| Multi-GPU Technology         | SLI, 2-Way                                                     |
| Output                       | DisplayPort x 3 (Version 1.4) / HDMI™ (Version 2.0) / DL-DVI-D |
| Power consumption (W)        | 180 W                                                          |
| Obsługa HDCP                 | 2.2                                                            |
| Virtual Reality Ready        | Y                                                              |
| Recommended Power Supply (W) | 500 W                                                          |
| Power Connectors             | 6-pin x 1, 8-pin x 1                                           |
| Obsługa DirectX (wersja)     | 12                                                             |
| Obsługa OpenGL (wersja)      | 4.5                                                            |
| Wymiary karty (mm)           | 279 x 140 x 42 mm                                              |
| Waga                         | 1075 g / 1707 g                                                |

## CONNECTIONS

1. DisplayPort
2. HDMI™
3. DVI-D

## FEATURES

### MSI Afterburner

The ultimate overclocking software with advanced control options and real-time hardware monitor.

### MSI Gaming App

One-click performance profiles and many other premium features to get the most out of your MSI GAMING card.

### Solid Black Backplate

Increases toughness of the card to prevent bending while complementing the sleek MSI GAMING design.

### Military Class 4 Components

Using only the highest quality components means you get reliable and stable in-game performance.

### RGB LED

Make your build look on fire or cold as ice. You are in control. Customize colors and effects with RGB LED.

### Double Ball Bearings

Strong and lasting core for the TORX Fan 2.0 to provide years of smooth and silent gaming.

### ZERO FROZR

Eliminates fan noise by stopping the fans in low-load situations so you can focus on your game.

### VR Ready

Certified to provide the performance required for a smooth experience in your VR adventures.

### TORX FAN 2.0

Award-winning fan design combining two different fin designs for cool & quiet gaming.
