## FEATURES

### TRI FROZR 3

Stay cool and quiet. MSI's TRI FROZR 3 thermal design enhances heat dissipation all around the graphics card.

### TORX FAN 5.0

Fan blades linked by ring arcs and a fan cowl work together to stabilize and maintain high-pressure airflow.

### Copper Baseplate

A solid nickel-plated copper baseplate transfers heat from the GPU to all heat pipes for better cooling.

### Core Pipe

Precision-machined heat pipes ensure max contact to the GPU and spread heat along the full length of the heatsink.

### Airflow Control

Don't sweat it, Airflow Control guides the air to exactly where it needs to be for maximum cooling.

### Metal Backplate

A sturdy backplate helps to strengthen the graphics card while a flow-through design reduces trapped heat.

### MSI Center

The exclusive MSI Center software lets you monitor, tweak and optimize MSI products in real-time.

### Afterburner

Take full control with the most recognized and widely used graphics card overclocking software in the world.
