## FEATURES

### TRI FROZR 3

Stay cool and quiet. MSI's TRI FROZR 3 thermal design enhances heat dissipation all around the graphics card.

### TORX FAN 5.0

Fan blades linked by ring arcs and a fan cowl work together to stabilize and maintain high-pressure airflow.

### Copper Baseplate

A solid nickel-plated copper baseplate transfers heat from the GPU to all heat pipes for better cooling.

### Airflow Control

Sections of different heatsink fins disrupt unwanted airflow harmonics and reduce noise.

### Metal Backplate

A sturdy backplate helps to strengthen the graphics card while a flow-through design reduces trapped heat.

### Zero Frozr

The fans completely stop when temperatures are relatively low, eliminating all noise.

### Core Pipe

Precision-machined heat pipes ensure max contact to the GPU and spread heat along the full length of the heatsink.

### MSI Center

The exclusive MSI Center software lets you monitor, tweak and optimize MSI products in real-time.
