

## SPECIFICATIONS

|                                 |                              |
|---------------------------------|------------------------------|
| Graphics Engine                 | GeForce 8600 GT              |
| Bus Standard                    | PCI Express x16              |
| Memory Type                     | GDDR2                        |
| Memory Size(MB)                 | 512                          |
| Memory Interface                | 128bit                       |
| Core Clock Speed(MHz)           | 540                          |
| Memory Clock Speed(MHz)         | 800                          |
| Memory Bandwidth(GB/sec)        | 22.4                         |
| Texture Fill Rate(billion/sec)  | 8.64                         |
| DVI Output                      | 1                            |
| D-SUB Output                    | 1                            |
| HDMI-Output                     | 1 (via DVI to HDMI adaptor)  |
| TV-Output                       | 1 (via S-Video to Composite) |
| HDTV Support                    | Y                            |
| HDCP Support                    | optional                     |
| HDMI Support                    | Y                            |
| Dual-link DVI                   | Y                            |
| Display Output (Max Resolution) | 2560x1600                    |
| RAMDACs                         | 400                          |
| DirectX Version Support         | 10.0                         |
| OpenGL Version Support          | 2.0                          |
| SLI Support                     | Y                            |
