

## SPECIFICATIONS

|                              |                                         |
|------------------------------|-----------------------------------------|
| Memory                       | 8GB GDDR6                               |
| Grafik Motoru                | NVIDIA® GeForce RTX™ 2080               |
| Veriyolu Standardı           | PCI Express x16 3.0                     |
| Bellek Arayüzü               | 256-bit                                 |
| Çekirdek Hızı(MHz)           | Boost: 1815 MHz                         |
| Bellek Hızı(MHz)             | 15.5 Gbps                               |
| Maximum Displays             | 4                                       |
| Multi-GPU Technology         | NVIDIA® NVLink™ (SLI-Ready), 2-way      |
| HDCP Desteği                 | 2.2                                     |
| Power consumption (W)        | 250 W                                   |
| Output                       | DisplayPort x 3 (v1.4) / HDMI™ 2.0b x 1 |
| Recommended Power Supply (W) | 650 W                                   |
| Digital Maximum Resolution   | 7680x4320                               |
| Virtual Reality Ready        | Y                                       |
| DirectX Desteği              | 12 API                                  |
| OpenGL Desteği               | 4.5                                     |
| Boyutlar (mm)                | 265 x 114 x 40 mm                       |
| Ağırlık                      | 862 g / 1554 g                          |

## CONNECTIONS

1. DisplayPort
2. HDMI™

## FEATURES

### MSI Afterburner

The ultimate overclocking software with advanced control options and real-time hardware monitor.

### NVIDIA G-SYNC™

Gives you more of what you want in a gaming experience. Incredibly smooth, tear-free gameplay at refresh rates up to 240 Hz.
