## CONNECTIONS

## FEATURES

- TRI FROZR 3**  
Stay cool and quiet. MSI's TRI FROZR 3 thermal design enhances heat dissipation all around the graphics card.
- TORX FAN 5.0**  
Fan blades linked by ring arcs and a fan cowl work together to stabilize and maintain high-pressure airflow.
- Copper Baseplate**  
A solid nickel-plated copper baseplate transfers heat from the GPU to all heat pipes for better cooling.
- Core Pipe**  
Precision-machined heat pipes ensure max contact to the GPU and spread heat along the full length of the heatsink.
- Airflow Control**  
Sections of different heatsink fins disrupt unwanted airflow harmonics and reduce noise.
- Zero Frozr**  
The fans completely stop when temperatures are relatively low, eliminating all noise.
- Metal Backplate**  
A sturdy backplate helps to strengthen the graphics card while a flow-through design reduces trapped heat.
- MSI Center**  
The exclusive MSI Center software lets you monitor, tweak and optimize MSI products in real-time.
