# Killer Control Center
User Guide

Killer Control Center

The Killer Control Center software can be installed with the Killer LAN driver. Once installed, the Killer Control Center icon would appear in system tray (bottom right of the screen). Right click on the icon to open application window.

In case no icon appears in system tray, you may activate Killer Control Center manually by double clicking the Killer Control Center icon on the desktop.

- **Overview** - displays network traffic on your system in the form of a speed-o-meter at the top. And also list all applications/domains that are passing traffic.
- **Apps** - displays currently using network bandwidth applications.
- **Wifi Analyzer** - shows the Wireless network around you.
- **Settings** - allows you to setup bandwidth. And also shows your ethernet setting information.

Configuring Bandwidth

Before using the Killer network for the first time, you should configure default Internet upload and download speed.

To configure bandwidth:

1. Select the **Settings** page in Killer Control Center.
2. Enter a value into the **Download Speed** field.
3. Enter a value into the **Upload Speed** field.
4. Check **OK** to allow the Killer Control Center to manage the bandwidth.
