

PATH TO THE FUTURE

MSI's new flagship model for avid gamers - MEG Trident X2, has an exclusive HMI 2.0 function. In addition to monitoring system status and adjusting performance, it can even operate the GI function of MSI gaming monitors. The MEG Trident X2 is powered by the top-tier Intel Core i9 processor and RTX 40 Series graphics card. Through the unique air baffle design of the third-generation Silent Storm cooling system and a 280 mm liquid cooler, temperature and noise can be both kept low to provide gamers with the best experience.
