Intel vPro® with up to 14th Gen Intel® Core™ i7 processor

Build for Sustainability

A better Future with EPEAT Registered MSI Desktops & Monitors

EPEAT, managed by the Global Electronics Council, is a global standard for greener electronics. MSI's EPEAT-registered products meet strict criteria for material selection, energy efficiency, recyclability, and corporate responsibility. By choosing MSI's EPEAT-certified solutions, companies reduce their environmental footprint while ensuring eco-conscious performance throughout the product lifecycle.

Sustainable product

By utilizing green materials like post-consumer recycled (PCR) plastic to reduce landfill waste and support environmental conservation. PCR can reduce carbon footprint by up to 42.9% compared to virgin plastic pellets derived from conventional petrochemical sources.

Sustainable action of product sales

MSI focuses on online marketing, interactive customer service, and eco-friendly practices, using QR codes and recyclable packaging to reduce environmental impact.

Intel vPro® - An Unrivaled Business PC Platform

Intel vPro® Enterprise

Intel vPro® is a suite of hardware technologies designed for business use. It includes features like Intel® Active Management Technology (AMT) for remote management, and support for wired and wireless network connectivity.

Overall, Intel vPro® enhances security, manageability, and performance for enterprise PCs.

Endpoint Management Computing Solution for Business

Enhanced Network Security

With Intel vPro®, only verified users and healthy devices access your network, ensuring stronger protection through continuous authentication.

Remote Management

Resolve issues swiftly with Intel vPro® 's remote management capabilities, allowing IT to diagnose and fix problems even when systems are powered off.

Patch Management

Intel vPro® streamlines patch management, enabling IT to remotely deploy updates and security patches, protecting devices and supporting both remote and on-site employees.

Long-term Reliability

MSI products with Intel® Stable IT Platform Program (Intel® SIPP) offer high-quality components for business users through rigorous validation processes.

Uncompromising Product Quality

Performance Assurance

MSI products exemplify uncompromising quality, we consistently achieve excellence in performance, durability, precision, and reliability.

Intensive Quality Testing

All MSI Business PCs are subjected to rigorous quality testing, surpassing mainstream models in terms of standards. They offer proven reliability across all aspects and demonstrate exceptional resilience, having been tested to industry-leading durability standards.

24 / 7 Qualified Reliability Test

Our commitment to product quality is reflected in our extensive reliability testing, which generates over 246,000 hours of MTBF (Mean Time Between Failures). We assure 24/7 reliability and availability, delivering an effortless user experience.

Why MSI Cubi Series?

Product Longevity

Built for durability and reliable long-term performance, ensuring consistent operation in business environments.

Mini Yet Powerful

The Cubi NUC Mini PC comes in a palm-size 135.6 x 132.5 x 50.1 mm case (0.826L/1.74PT) with far less performance trade off compared to laptops.

Reliable Choice for Business

Designed with businesses in mind, the Cubi Series offers stability, security, and reliable performance. Its small footprint makes it perfect for any office setting.

Optimized for Versatility & Convenience

With flexible configurations and multiple I/O ports, the Cubi Series is versatile enough to fit a wide range of needs, from office work to multimedia applications.

Empowering the Future

Equip classrooms and training centers with Cubi NUC's compact design and robust computing power. Perfect for interactive lessons, virtual learning, and administrative tasks.

Quiet and Durable

Engineered for quiet operation and durability, making it ideal for offices that need to minimize noise and maximize uptime.

Eye-Catching Displays Anywhere

Cubi NUC supports high-definition digital displays for dynamic advertisements and real-time updates, perfect for restaurants, retail spaces, and events.

PerfectEdge Provides the Perfect View

The four-side slim bezel design maximizes screen space, minimizing distractions and enhancing focus. Ideal for work or play, it allows seamless multi-monitor setups, creating a clean, expansive, and elegant workspace.

One-Cable Display & 98W Power Delivery

Unlock the full potential of USB Type-C with a single port that handles data transfer, display output via DisplayPort Alt Mode, and 98W fast charging. Plus, enjoy Ethernet connectivity — all from one versatile connection that boosts your productivity.

Streamline Your Multi-Monitor Setup with Daisy Chain

Simplify your setup with daisy chain support, enabling dual monitors to connect in series with a single cable, minimizing the number of ports needed. Reduce clutter and enhance your workspace for a smooth, multi-monitor experience.

NOTE The Daisy Chain function requires a USB Type-C cable as the video output source. A Display Port cable will be needed to connect the monitors completing the daisy chain.

Reliable Wired Connectivity

No longer struggling with a laptop that lacks a LAN port. Connect to reliable internet via your monitor's built-in LAN port using a Type-C cable.

Effortless Video Conferencing

The built-in webcam, digital microphone, and 2x 2W speakers deliver smooth, high-quality online meetings.

See More, Do More with PiP/PbP

Picture-by-Picture (PbP) splits your screen into two distinct sections, allowing you to display content from two different sources side-by-side.

Picture-by-Picture (PbP) | Picture-in-Picture (PiP)

Dual Device Power-Up & Mini PC Mountable

HDMI CEC with MSI Power Link syncs MSI mini-PCs to power on with the monitor, while a 4-way adjustable stand with mini-PC mountable design keeps your desk organized.

Effortless Adaptation with Every Move

The G-sensor technology ensures seamless adaptability, automatically adjusting your screen's orientation with every movement. Whether you're switching from landscape to portrait mode or repositioning your device, the G-sensor delivers an effortless, intuitive experience that enhances both productivity and comfort.

Modern MD272UPSW Smart Monitor

Google TV™

The entertainment you love. With a little help from Google. No more jumping from app to app. Google TV brings together your movies, shows, and more from across your subscriptions, so they're in one place. [1] [2] [3]

Google Assistant

Ask Google Assistant to find movies, stream apps, play music, and control the monitor — all with your voice. [4]

Built-in Speakers and Dolby Audio

It has built-in speakers and uses Dolby Audio technologies to play movies and TV shows in surround sound.

Multi Control

lets you manage two devices from a single screen with one set of peripherals, enhancing multitasking efficiency.

Google Cast™

Easily cast movies, shows, photos, and more from your phone or tablet, right to your TV.

Type-C 65W Power Delivery

Built-in an USB Type-C connection with 65W power delivery allows you to effortlessly connect to and charge your devices.

*Mouse and keyboard are sold separately.
