CERTIFICATIONS

BUILT FOR SUSTAINABILITY

The MSI All-in-One PCs blend business-centric design with environmental responsibility - an embodiment of MSI's dedication to sustainability. Our commitment extends to incorporating sustainable materials in both our product design and packaging, protecting the earth through our actions. By utilizing sustainable materials such as PCR plastics, recycled pulp from FSC™-certified forests, more active management of substances used in manufacturing processes, and the continued use of renewable energy in production processes, we ensure the products' durability and a commitment to a greener world.

The MSI All-in-One PCs embody sustainable value and heightened productivity.
